

UCI Emergency Management

To the Anteater community:

September is [National Preparedness Month](#), and [UCI's Emergency Management \(EM\)](#) department will launch an awareness/preparedness campaign to encourage individuals to take important steps to increase their preparedness and knowledge on available disaster resources. The campaign focuses on different aspects of preparedness for students, staff, and faculty.

- Week 1 (Sept. 5-9): Know Your Zone
- Week 2 (Sept. 12-16): Transportation Access Point (TAP)
- Week 3 (Sept. 19-23): Emergency Response Procedures
- Week 4 (Sept. 26-30): Assembly Areas

Four scavenger hunts are scheduled to take place and eligible participants are entered in a weekly opportunity drawing to win gift cards up to \$50. Scavenger hunt information will be updated at the start of each week at em.uci.edu as well as communicated in the UCI Digest. In addition, the EM department will set up information tables at move-in week, Anteater Involvement Fair, and the Resource Fair to answer any questions and pass out promotional items.

If you are interested in a more in-depth preparedness presentation for your department/organization please email the EM department at uciemergencymanagement@uci.edu, or visit our [website](#) to learn more about increasing your individual preparedness.

Thank you in advance for your partnership in making this a successful campaign by taking action to be part of this year's National Preparedness Month.

Sincerely,

Randy Styner
Director of Emergency Management
