

# Highlighted Changes to Volunteer Emergency Response Groups

## Discontinue role of Floor Wardens

A newly produced Emergency Response Procedures video will be hosted on UCLC. The video will be viewed by all staff, faculty and students annually. This video allows us to no longer need the role of Floor Warden.

## Zone Crew Responsibilities

A new Zone Crew motto, “Evacuate and Communicate.” New, simplified task and processes will remove the demand to be responsible for an evacuation but rather a leader in the building’s emergency response procedures, resources, and trainings.

## CSAR to CERT

We have changed the name of our community emergency response team from CSAR to CERT. Existing CSAR members do not need to do any additional training or recertification to be a CERT member.

## Training Opportunities

By removing Floor Wardens and simplifying roles and responsibilities within Zone Crew, this will allow us to increase our training and exercise opportunities. Training calendar and opportunities can be found on [em.uci.edu](http://em.uci.edu).

## Volunteer Contact Lists and Rosters

A newly developed, online database for CERT and Zone Crew. All individuals will manage their own profile, alerts and notifications. This addition removes the obligation to maintain contact lists by Building Coordinators and Zone Captains.

Revised 10/2022
